

BRING YOUR MESSAGE LIVE...

Studies show that one of the most difficult tasks for a church is delivering effective and up to date information to its members. We live in a fast paced, mobile society, staying in touch with absent church members and helping them maintain a "personal connection" with their home church can be a challenge.

We can help you bridge the distance and build your church family, at a cost you can afford.

Spreading the Word

We want to work with you to recruit, encourage and develop your memberships. Our services allow you to provide a more personal and meaningful interaction with members when they are unable to attend a weekly church program.

**Send it home
or give it
away...**

Imagine greeting someone new in the community with a copy of a recent church service, tales from bible school, a personal interview with church leaders, the church directory and, of course, general information about your services.

Any of these video and audio tapes can be made available easily. These communication tools are invaluable to the church expansion process. Archival copies of services or events can be placed in the pastoral library.
