1 Pack Media manufactures issue bricks of 5 minute duration for your consideration in constructing a logical outlook on the great issues of the

day. 1 Pack Media assumes people, as citizens and as consumers, have high interest in there issues and value a viewpoint that goes beyond the conventional wisdom of pack journalism. 1 Pack Media brings you the news of tomorrow, today.

StuzzinSpotlight takes a look at life though stories. These stories come from published sources or are sent in from listeners. The host, Jay, is an All-American boy who believes in the good of humans as a whole and tries to show this strength of the human spirit in his shows. Jays mellow voice and attitude produce a show that is good for the mind as for the soul.

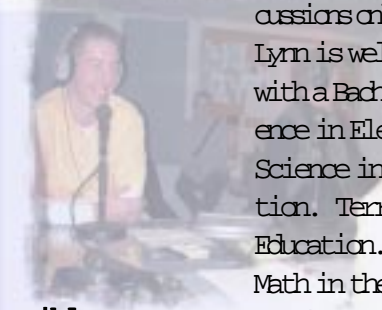

StuzzinSpotlight's format is not only touching but also entertaining. Jay's

guests range from authors discussing their publications to local musical artists performing original songs from their latest album.

Along with news and stories, Struzzin Company also dedicates time to learning. Through the energetic teaching of Terri Lynn, mathematics, science and writing are made easy through open discussions online. Terri Lynn is well educated with a Bachelor of Science in Electrical Engineering and a Masters of Science in Math, Science and Technology Education. Terri is currently pursuing a PhD in Math Education. Her publications include "There is Math in the Butterfly's Wings" and "The Audible Sunlight." "Graphical Analysis of Algebra 2 / Trig" and "A Square Hole Amidst the Triangles" are due out in late 2002.

Terri welcomes guests of a wide range of personalities, from professional football player David Mitchell of the Chicago Bears, to Jacob Yandura, composer of "American Requiem 9/11."

Struzzin Company also offers broadcasting time to your special activities. School board meetings, alumni events (reunions, dinners, etc.), sporting events (high school, collegiate or professional), church services and many other occasions can easily be shared live via the internet.
